SUGGESTIONS

The little *inn* Mitten is a bow to the name of the season. Your fabric can be any color you choose, however, ours is shown on 28 count Ivory linen worked over two threads. The size of the buttons listed above will only work at 14 stitches per inch. If your stitched mitten is larger than 14 per inch, you will have to use medium or large versions of the buttons. The design is worked in two ply cotton floss. When there is "no room at the inn," a mitten can be just the shelter to populated with a cast of holy button characters. If the traditional Christmas story is not the one you celebrate, consider filling your little stable with some of the tiny domesticated animals (size small) available from JABCO...maybe a flock of fluffy white sheep. *Enjoy!*
