LONGSTITCH

Two Ply

Moustache Blanc/ or Wisper W88*
 *Wisper is a kid mohair and nylon thread from Rainbow Gallery. It is very fuzzy, so try a thread and if the coverage is too light, try again with two threads. The longstitches of the moustache are worked vertically: first stitch from top to bottom, then second from bottom to top. Repeat this method across the width of the moustache.

FRENCH KNOT

Single Ply, tight & fine

Eyes..... Blanc

SUGGESTIONS

We suggest working on Wichelt Imports' 28 count Desert Sand linen stitching over two threads using two ply floss. To finish your pocket watch as an ornament, lightly draw a circle around the stitched area of both the front and back of the watch being careful to center you work. Be sure that your circle template is just large enough to enclose the entire stitched work of both the front and the back. Add a second larger circle at least .5 inches in diameter bigger than the first circle. This circle will indicate the seam allowance. Be sure the first circle is precisely centered within the second and trace a light line. Finish as you would any ornament: lightly stuffing, folding in the seam allowances and sewing the front to the back with invisible stitches. Piping can be added to the outer edge of the ornament with a loop at the top for hanging. This is just a suggestion: creative touches are endless.
